

# Shubhash Jha

Software Engineer

(+91) 7359516990

Ahmedabad, Gujarat, India

[shubhash.career@gmail.com](mailto:shubhash.career@gmail.com)

## ----- Profile Summary -----

Seasoned Full Stack Software Engineer with four years of hands-on experience, specializing in Angular and .NET technologies. Proficient in building robust web applications from concept to deployment. Possesses a solid foundation in React and continuously seeks to expand skills in emerging technologies. Proven ability to collaborate effectively in cross-functional teams to deliver high-quality solutions that meet client needs and exceed expectations.

## ----- Work Experience -----

- ⇒ eClinicalWorks (Software Engineer) (April-2023 - Current\*)
- Collaborate with product managers, designers, and other developers to understand requirements and translate them into technical specifications. Implement new features and enhancements in accordance with established coding standards and best practices.
  - Analyze system performance metrics and identify areas for optimization. Implement performance tuning strategies to enhance application speed, scalability, and resource utilization.
  - Participate in agile ceremonies such as sprint planning, daily stand-ups, and retrospectives. Communicate effectively with team members, stakeholders, and customers to ensure alignment on project goals, timelines, and deliverables.
  - Document technical specifications, architectural designs, and code changes to facilitate knowledge sharing and maintain system integrity. Contribute to the creation of user guides, API documentation, and developer resources as needed.
  - Conduct code reviews to ensure code quality, adherence to coding standards, and proper documentation. Work closely with QA engineers to develop and execute test plans, ensuring the reliability, security, and scalability of the product.
- ⇒ Xcode Web Solutions (Software Engineer) (Dec-2020 - March-2023)
- Design, develop, and maintain .NET-based software solutions according to client requirements and project specifications.
  - Engage with clients to gather requirements, provide technical expertise, and demonstrate software solutions. Address client feedback and incorporate changes to deliver products that meet client expectations.
  - Provide ongoing support and maintenance for deployed applications, including bug fixes, performance optimization, and security updates. Respond promptly to client inquiries and issues to ensure high levels of customer satisfaction.
  - Perform unit testing, integration testing, and system testing to ensure the reliability, security, and performance of developed software. Debug and troubleshoot issues to identify root causes and implement effective solutions.
- ⇒ AnsiByte Code LLP (Trainee Software Engineer) (Aug-2020 - Dec-2023)
- As a Trainee Software Developer at ABC, I contribute to the development and enhancement of .NET-based products while honing my skills under seasoned professionals. My responsibilities include participating in the full software development lifecycle, from requirements gathering to design, implementation, testing, and deployment. I collaborate closely with senior developers to learn best practices and coding standards while gaining hands-on experience in .NET technologies. With a strong foundation in programming principles and a passion for continuous learning, I am eager to grow as a software developer and make meaningful contributions to the innovative projects at ABC.

## ----- Education -----

- ⇒ Bachelor of Engineering (Computer Engineering) (Sep-2016 - Aug-2020)
- University: Apollo Institute of engineering and technology (AIET) [Gujarat Technical University]
  - Result : 8.8 CGPA
- ⇒ HSC (Science Stream) (Mar-2014 - May-2016)
- University: GSEB
  - Result : 67 %

## ----- Skill Set -----

- Front end:  
HTML, CSS, JavaScript, JQuery, AngularJS, Angular, TypeScript ,React
- Backend end:  
.NET, .NET Core, .NET Framework, C# ,ADO.NET, EF, LINQ, Azure services, Azure 360 Logic Apps, Web Forms, AzureDevOps, Azure Functions
- Database:  
SQL Server
- OS:  
Windows, Linux
- Tools:  
Visual Studio, Postman, SonarQube, VS Code, Swagger, Jenkins, Source Tree, Trello, Bitbucket AzureDevOps, Jira, Contrast

## ----- Projects -----

### ⇒ **TAG** (Xcode web solutions)

Australia firm Trade Alliance Group (TAG) is a buying group to help other small builders and tradies purchase their building materials and other services at much more competitive prices than they could on their own.

Through the power of group buying, members are able to purchase materials at much more competitive rates.

- Tech Stack : ASP.NET MVC (Framework),C#,ANGULARJS,SQL Server
- <https://tradealliance.com.au/>

### ⇒ **Auxcon** (Xcode web solutions)

Auxcon dedicated to transforming the legal landscape by introducing an efficient paperless administration and communication channel. Auxcon is comprehensive platform that embraces all stakeholders in the legal fraternity, fostering a moral, reputable, honourable, mutually beneficial, interlinked, and reliable legal community. Through transparency and ethical practices like Effortless matter management,Efficient time tracking,Instant invoice generation,Customised invoices and statements,Real-time client status awareness,Tailored blue-chip debtor management,Proactive relationship management,User-friendly training,Personalised and rapid support etc

- Tech Stack : ASP.NET MVC (Framework),C#,ANGULARJS,SQL Server
- <https://www.auxcon.co.za/>

### ⇒ **IQ Academy** (Xcode web solutions)

Implemented Azure Logic Apps based on client requirement.

- Tech Stack : Azure 360 Logic Apps
- <https://www.iqacademy.ac.za/>

### ⇒ **Abacus Insurance** (Xcode web solutions)

Implemented web application with Azure Logic Apps and Azure functions based on client requirements for validate claims/ Policies using js react framework.

- Tech Stack : Azure 360 Logic Apps, Azure Function, .Net Core,C#, React
- <https://www.abacus-insurance.co.za/>

### ⇒ **CRM Reporting tool** (JCIPL)

Implemented web application for reporting tool using Angular, .Net Framework, Sql Server with different UI library like DevExtrem/Ag-grid

- Tech Stack : .Net Framework (MVC) ,SQL Server ,C#, Angular
- <https://www.abacus-insurance.co.za/>

### ⇒ **HMIS (Hospital Management Information System)** (eCW)

Responsible for Lab/Radiology reports Module, Solve security Issues in Product, Work on another product interaction with main HMIS Product,

- Tech Stack : .Net Framework (MVC), .Net Core ,SQL Server ,C#

### ⇒ **OPRA** (eCW)

Opra is mobile based application in which patient can manage own appointment and manage payments

- Tech Stack : .Net Core ,SQL Server ,C#

### ⇒ **AutoUpgrade** (eCW)

Auto Upgrade is eCW Internal product which helps support and install team to deploy or upgrade client application to upcoming release.

- Tech Stack : .Net Core ,SQL Server ,C#

----- Extra Curricular Activities -----

- Coordinate Technical fest event in 2018 organized by Gujarat Technical University.
- Campus Ambassador representative for CDAC (Pune) in GTU regarding Super Computer.
- Certifications from online platforms like Udemy, Coursera.
- **Research Paper:** Published research paper on "Structures & Communication of QR Code" in IJSRD Journal.

Link : <http://ijsrd.com/Article.php?manuscript=IJSRDV8I50012>

- **Internship:** Completed one year of Internship in **SilverTouch TechLab,Ahmedabad** during bachelors in final year (ASP.NET MVC).
- Goldman Sachs - Software Engineering Job Simulation certifications from Forage platform.
- Datacom - Software Development Job SimulationDatacom certifications from Forage platform.
- Electronic Arts - Product Management Job Simulation certifications from Forage platform.
- Cognizant - Agile Methodology Job Simulation certifications from Forage platform.

----- Personal Details -----

- Father Name : Lalan M.Jha
- Birth Of Date : 09th Dec,1998
- Birth Of Place : Bihar (India)
- Married Status : Single
- Nationality : Indian
- Hobbies : Cricket, Traveling, Solving real world Problems
- Language : Gujarati, Hindi, English
